

# Tanguy Frémont

DevOps Intern

## ABOUT ME

After graduating French High school at 16, I realized that traditional higher education wasn't for me. I therefore pursued an online education in Computer Science while working different full-time jobs in the service industry in Paris. I am now looking to transition into a Computer Science job as a Junior or Intern to get my first experience in the field I study. My long-time goal is to become a DevOps engineer.

## SKILLS

- Scientific Publication (LaTeX, APA7 formatting)
- Sysadmin Linux
- Project Management (UML, Agile)
- Networking
- Software Engineering

## LANGUAGES

- Python (Matplotlib, NumPy, Pandas)
- SQL
- WEB (HTML, CSS, PHP)
